OUR MISSION:

To protect government, military, and critical organizations' networks and data with uncompromising cyber-defense solutions, engineered to meet the world's most demanding security standards.

HSL'S OPERATIONAL DIVISIONS

CYBER & DEFENSE

- Enables secure interaction and information sharing across air gapped networks.
- Ensures network integrity by isolating host computers from connected peripherals.

SECURE COMMUNICATIONS

- Develops battle-proven solutions for mission-critical data security, using a hardware and software integrated cryptographic module.
- Secure, FIPS-compliant, data communication over commercial & private, tactical, 4G/5G and SATCOM networks.
