High Security Labs Inc  
2995 Wall Triana Hwy  
Madison, AL 35824

Dear Zohar Vered,

I would like to congratulate High Security Labs Inc on the successful completion of the Common Criteria evaluation of the HSL Secure KM Models SM20N-3, SM40N-3, SM40NU-3, SM80N-3, SM80NU-3, Validation ID 10982. We appreciate your efforts to support this important initiative to make evaluated commercial products available for National Security System (NSS) Procurement according to Committee on National Security Systems Policy #11.

The Validation Report and the Security Target have been posted on the NIAP Product Compliant List (PCL) at <https://www.niap-ccevs.org/st/Compliant.cfm?PID=10982>. Having a Validated Product on the PCL entitles you to use the CC Certification Mark in conjunction with advertising, marketing, and selling of this specific product. Please designate a single point of contact to work with my staff in coordinating the proper use of the registered trademark. If requested, a graphic file with guidance for use will be sent in a separate correspondence.

It is the responsibility of the vendor to keep the contact information for your CCEVS Website PCL entry current. If your PCL entry needs to be updated, please contact my staff via [niap@niap-ccevs.org](mailto:niap@niap-ccevs.org). If this product becomes unavailable for purchase in the commercial market, please bring this to our attention immediately.

It is also the responsibility of the vendor to ensure any statement made in a press release or in any promotional material is an accurate representation of the evaluation. CCEVS requests all related press releases and promotional material be submitted to CCEVS for review and approval prior to release. Please submit any requests for review to [ceap@niap-ccevs.org](mailto:ceap@niap-ccevs.org).

On behalf of the U.S. NIAP CCEVS, congratulations on this achievement. If you have any questions please call me at 410-854-4458.

Sincerely,

A handwritten signature in cursive script that reads "Mary L. Baish".
