

# HSL CABLES AND ADAPTERS

HSL offers a diverse range of cables and format converters.

Some of the cables are specifically designed for HSL Secure KVM products. These cables play a vital role in the product security evaluation and testing process. They ensure signal integrity and control radiated emissions levels.

## Video Format Converters

HSL's compact HDMI / DisplayPort (DP) adapters support up to 4K UHD at 60Hz. No external power supply or drivers are required for these adapters.

Secure adapters are also available with an integrated video isolator, securing unidirectional monitor connectivity.

MODEL	DESCRIPTION	PC SIDE	CONSOLE SIDE	LENGTH
CU18	KVM Cable - USB A to USB B 6ft/1.8M	USB A	USB B	6ft/1.8M
