

SoundSentry™

SECURE MEETING ROOM SOLUTIONS

USE CASES

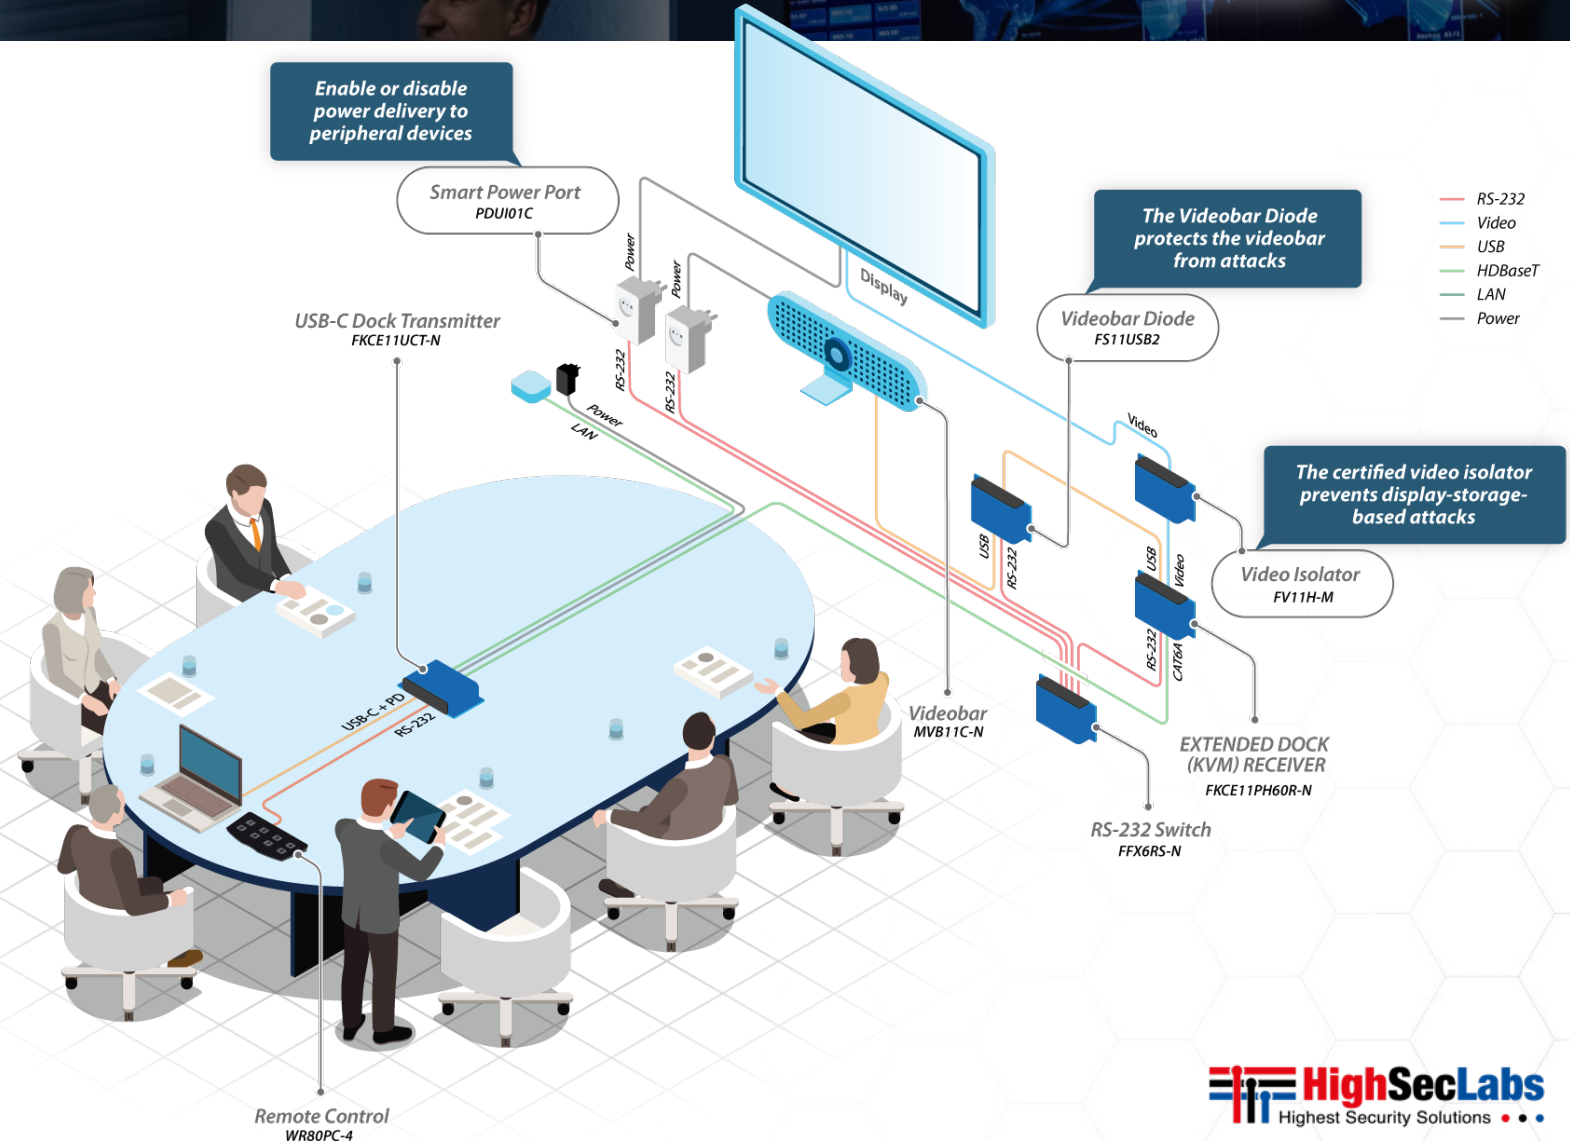

SoundSentry™ is fully scalable to accommodate a range of environments.

SECURE MEETING ROOM

Manufactured under
a secure TAA/BAA
compliant supply chain

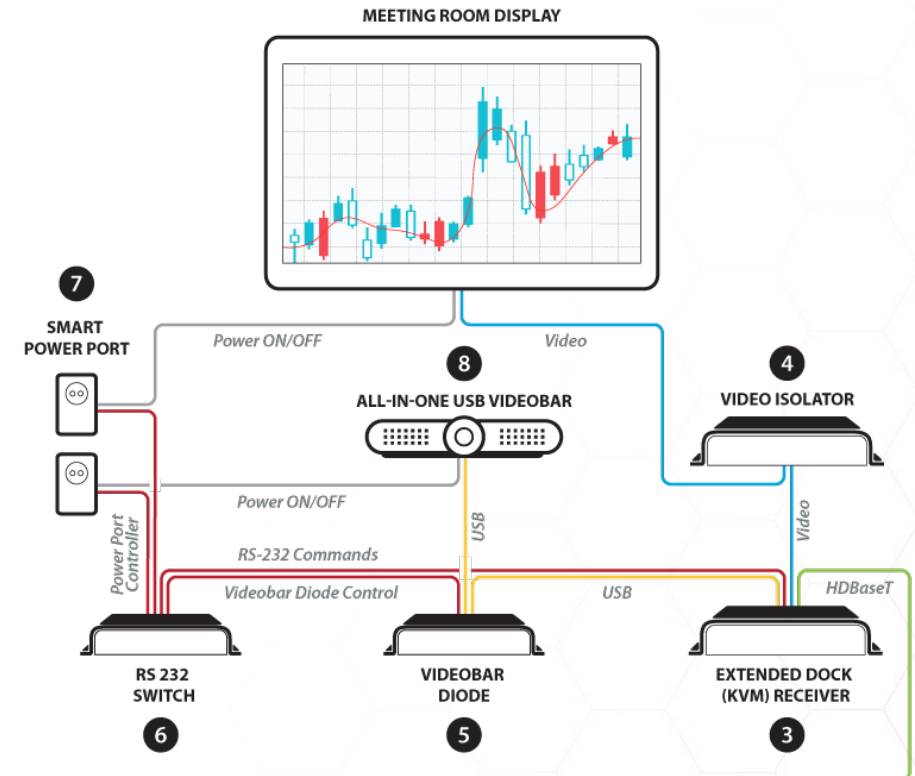

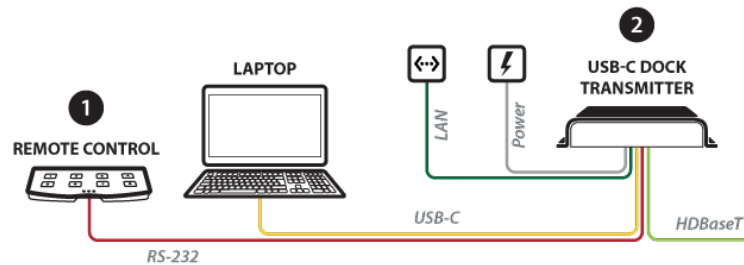

Meeting rooms are equipped for seamless collaboration but the display and Videobar vulnerabilities turn those peripherals into proxies for data extraction, malware injection, and eavesdropping.

SECURE MEETING ROOM WIRING DIAGRAM

	Product	Model	Qty
1	Remote Control	WR80PC-4	1
2	Dock Extender Tx	FKCE11UCT-N	1
3	Dock Extender Rx	FKCE11PH60R-N	1
4	Video Isolator	FV11H-M	1
5	Videobar Diode	FS11USB2	1

SECURE HUDDLE ROOM

Manufactured under
a secure TAA/BAA
compliant supply chain

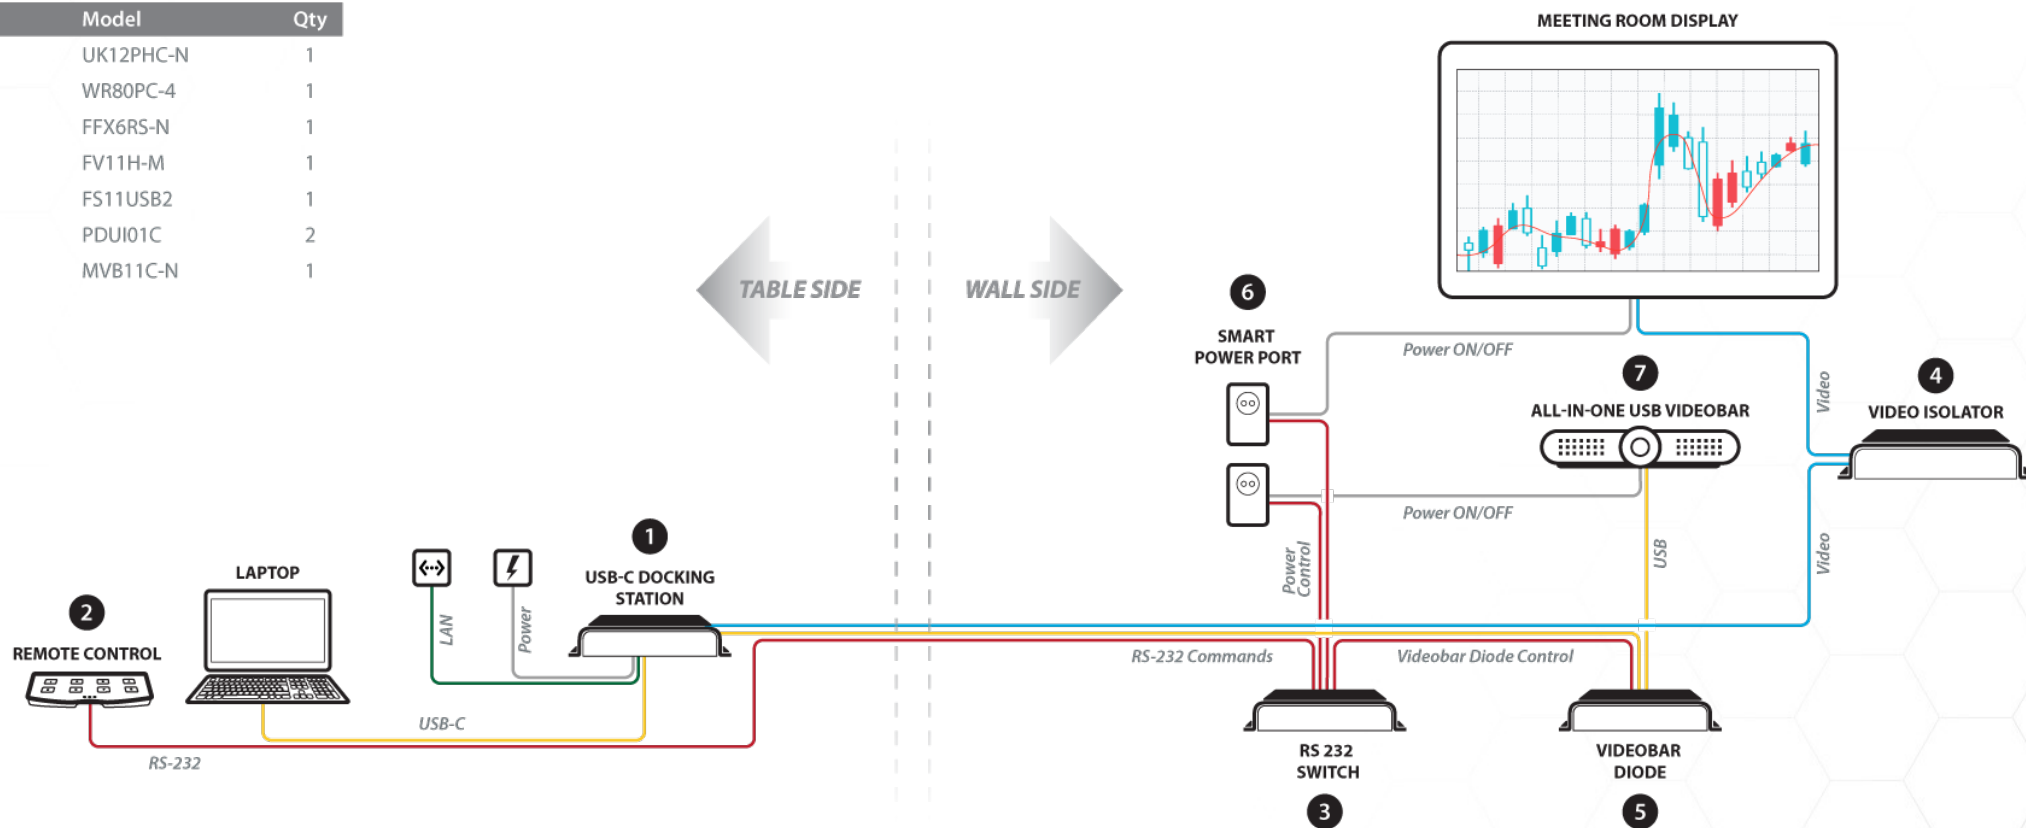

Huddle rooms are designed for quick collaboration, but their simple tech (display, camera, and guest USB-C port) presents significant security risks for malware, data extraction and eavesdropping.

SECURE HUDDLE ROOM WIRING DIAGRAM

SECURE BASIC EXECUTIVE OFFICES

Manufactured under
a secure TAA/BAA
compliant supply chain

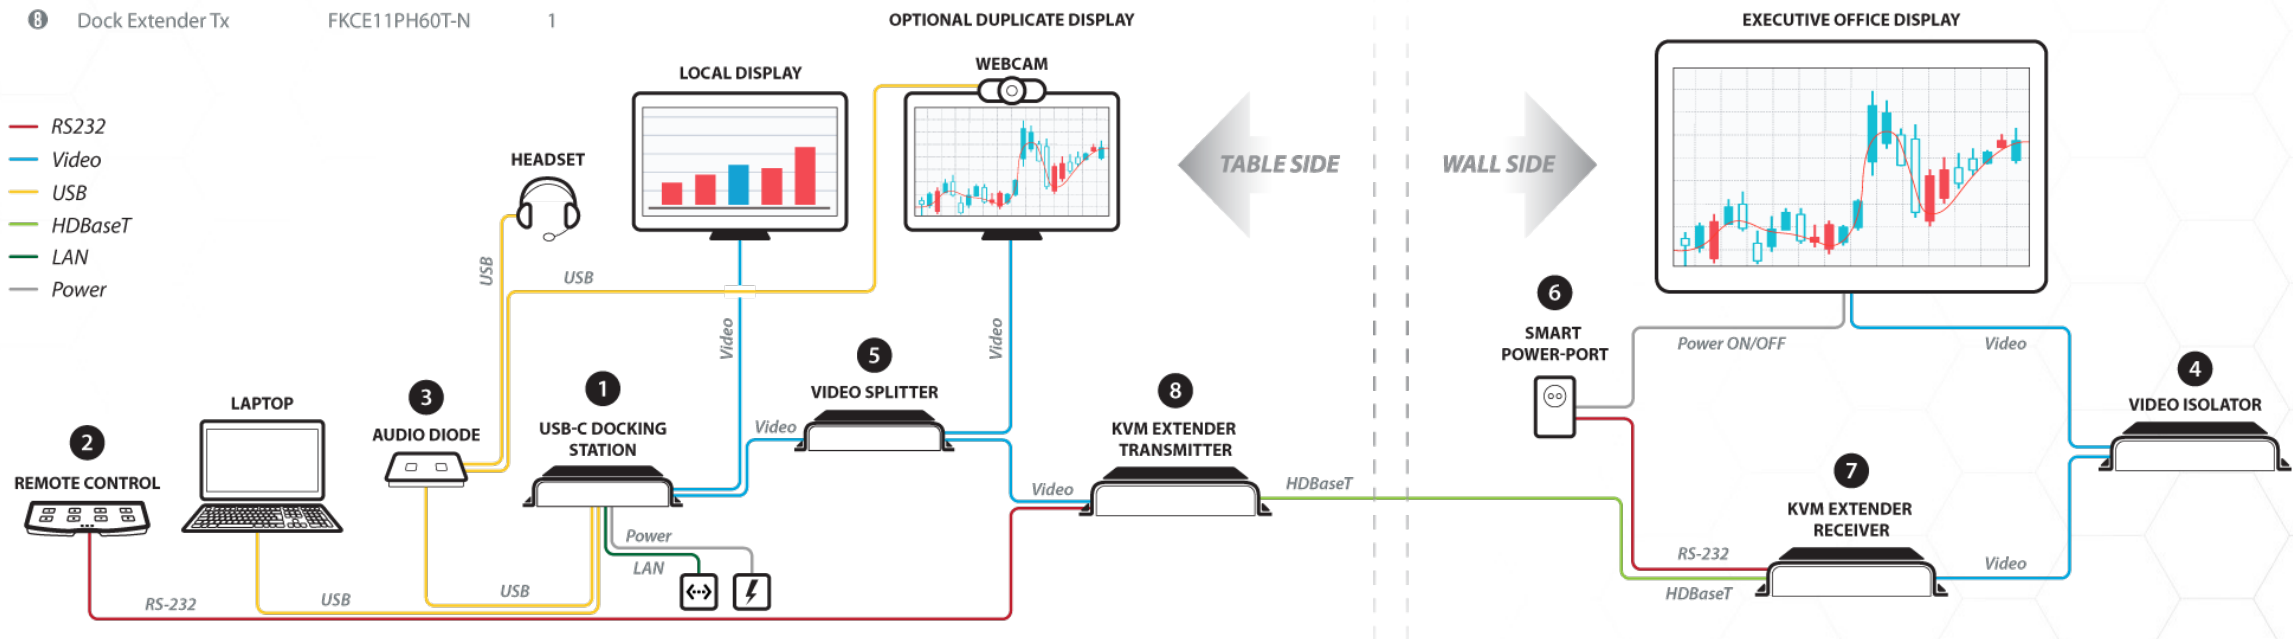

Executive-office security focuses on blocking guest devices. However, the executive's own tech (multiple monitors, a webcam, and a headset) introduces vulnerabilities for data breaches and eavesdropping.

SECURE BASIC EXECUTIVE OFFICE WIRING DIAGRAM

	Product	Model	Qty
1	Docking Station	UK12PHC-N	1
2	Remote Control	WR80PC-4	1
3	Audio Diode	FA10BC-4	1
4	Video Isolator	FV11H-M	1
5	Video Splitter	PV12PH-N	1
6	Smart Power Port	PDU101C	1
7	Dock Extender Rx	FKCE11PH60R-N	1
8	Dock Extender Tx	FKCE11PH60T-N	1

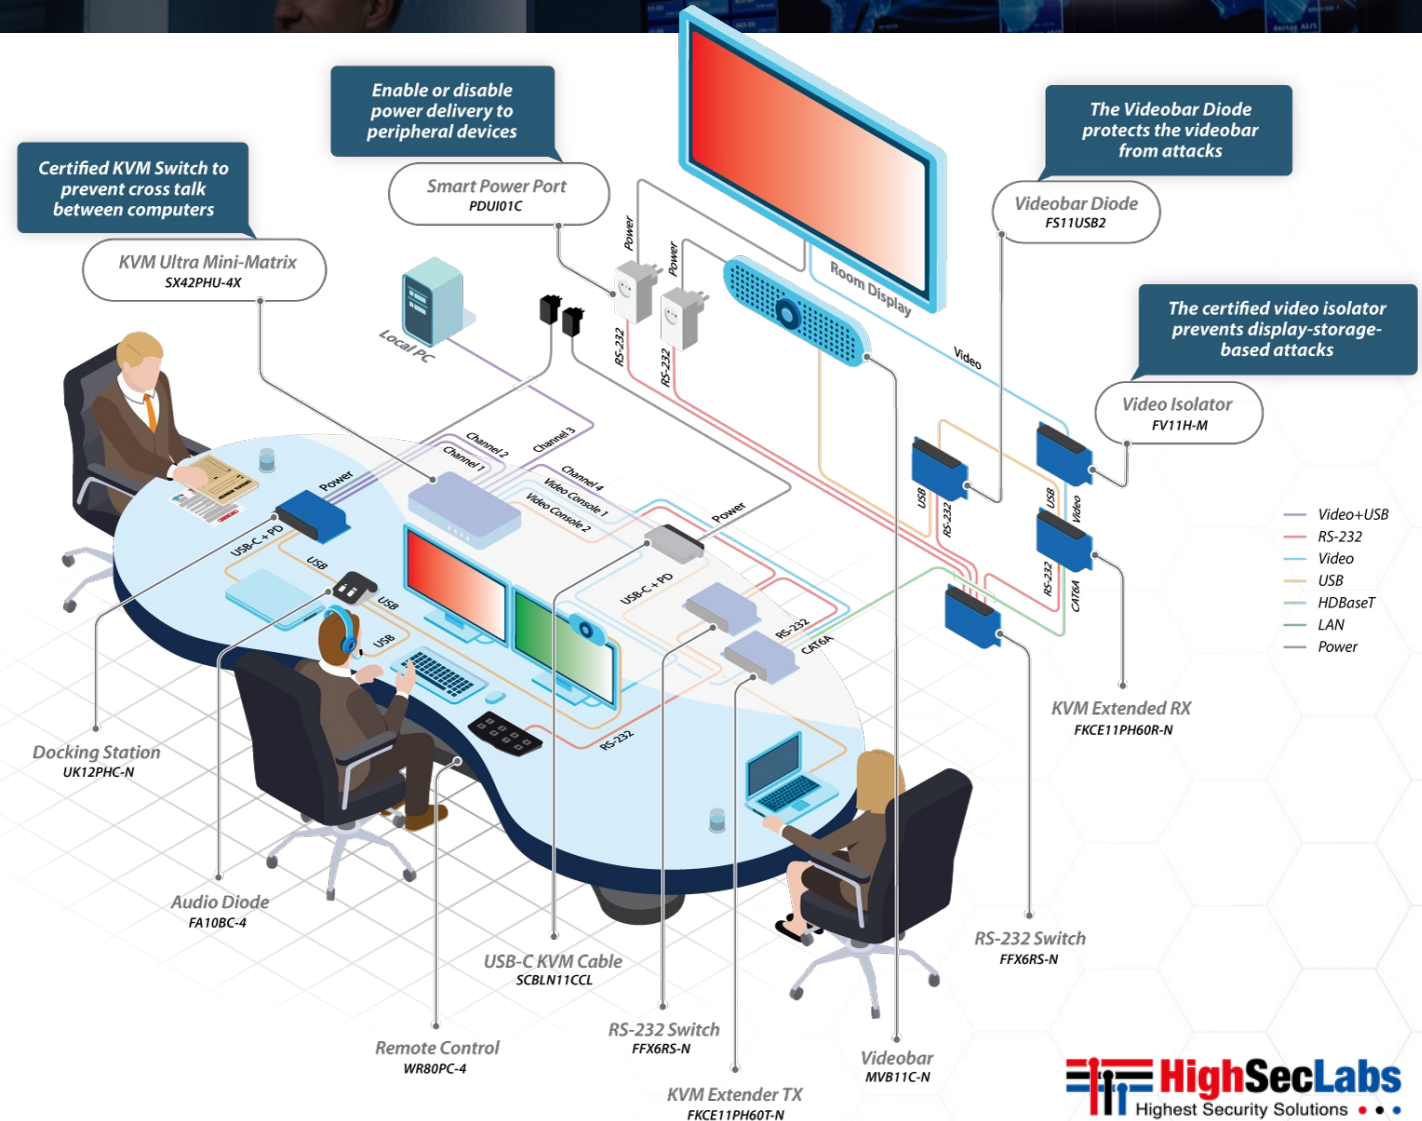

SECURE STANDARD EXECUTIVE OFFICE

Manufactured under
a secure TAA/BAA
compliant supply chain

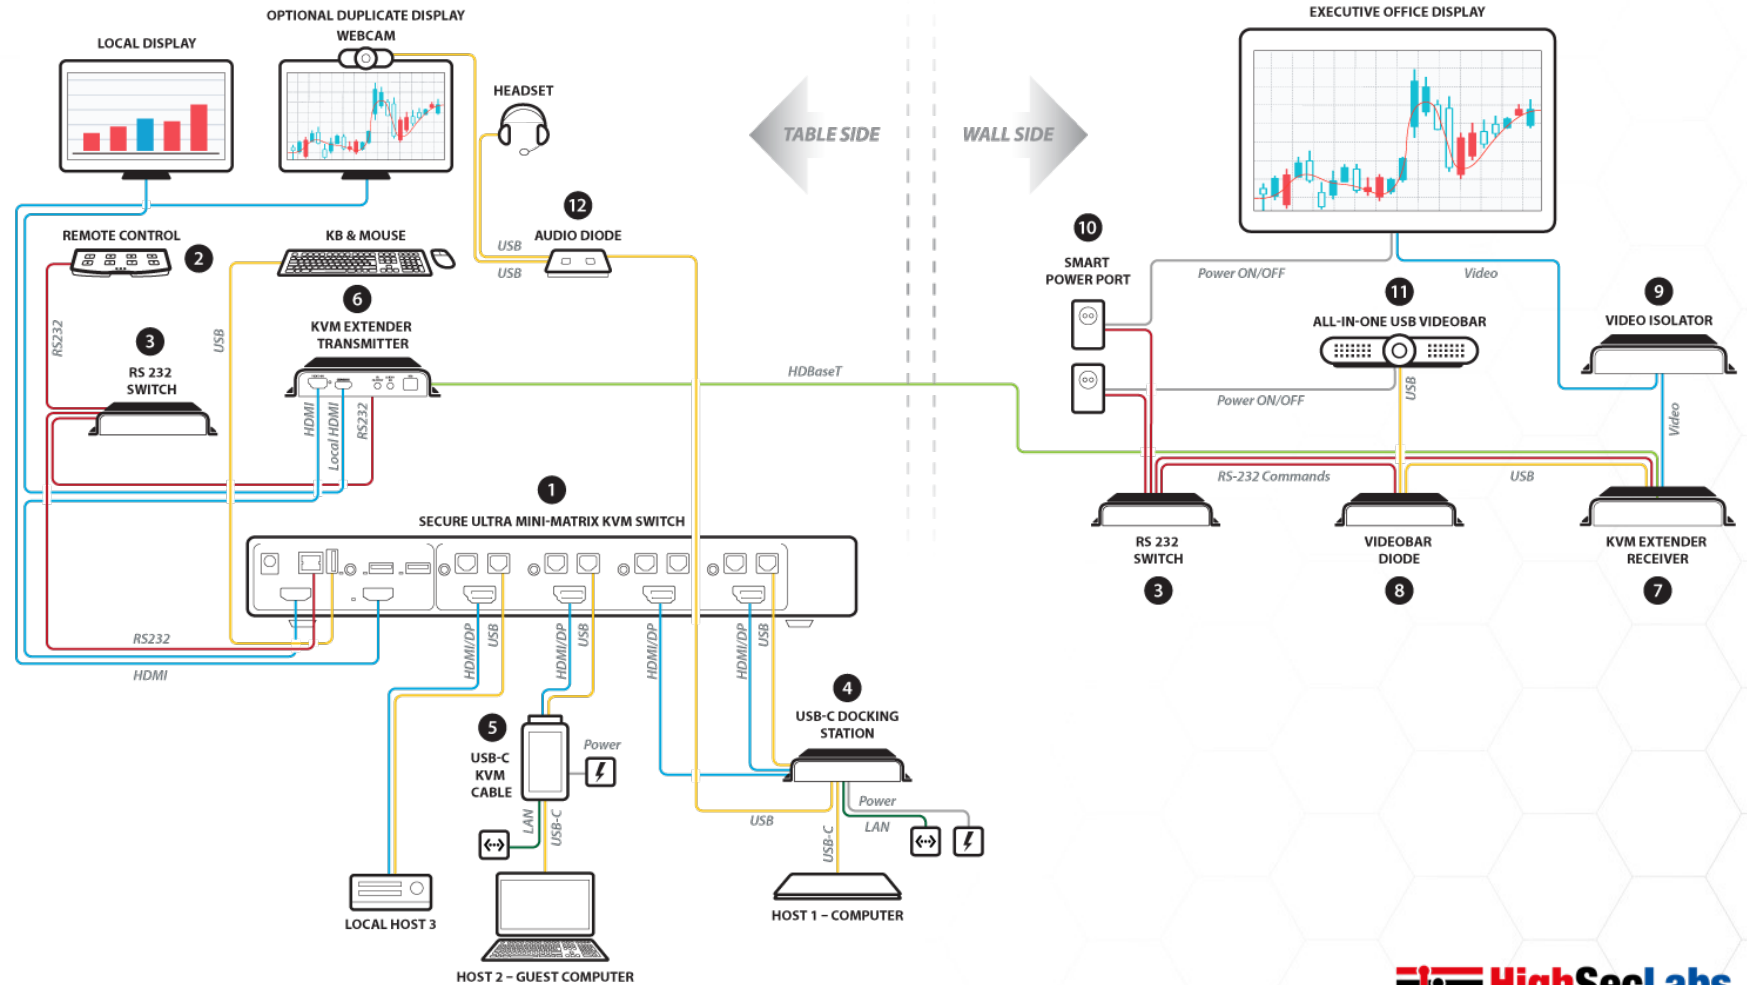

Designed for versatility, the senior executive office's core features introduce serious security flaws. Support for simultaneous inputs from a guest, the executive, and classified network devices creates a direct path for malware and data breaches. Likewise, its Videobar and dedicated peripherals are prime targets for exploitation.

SECURE STANDARD EXECUTIVE OFFICES WIRING DIAGRAM

Product	Model	Qty
1 Secure Ultra MM KVM Switch	SX42PHU-4X	1

SECURE SENIOR EXECUTIVE OFFICE

Manufactured under
a secure TAA/BAA
compliant supply chain

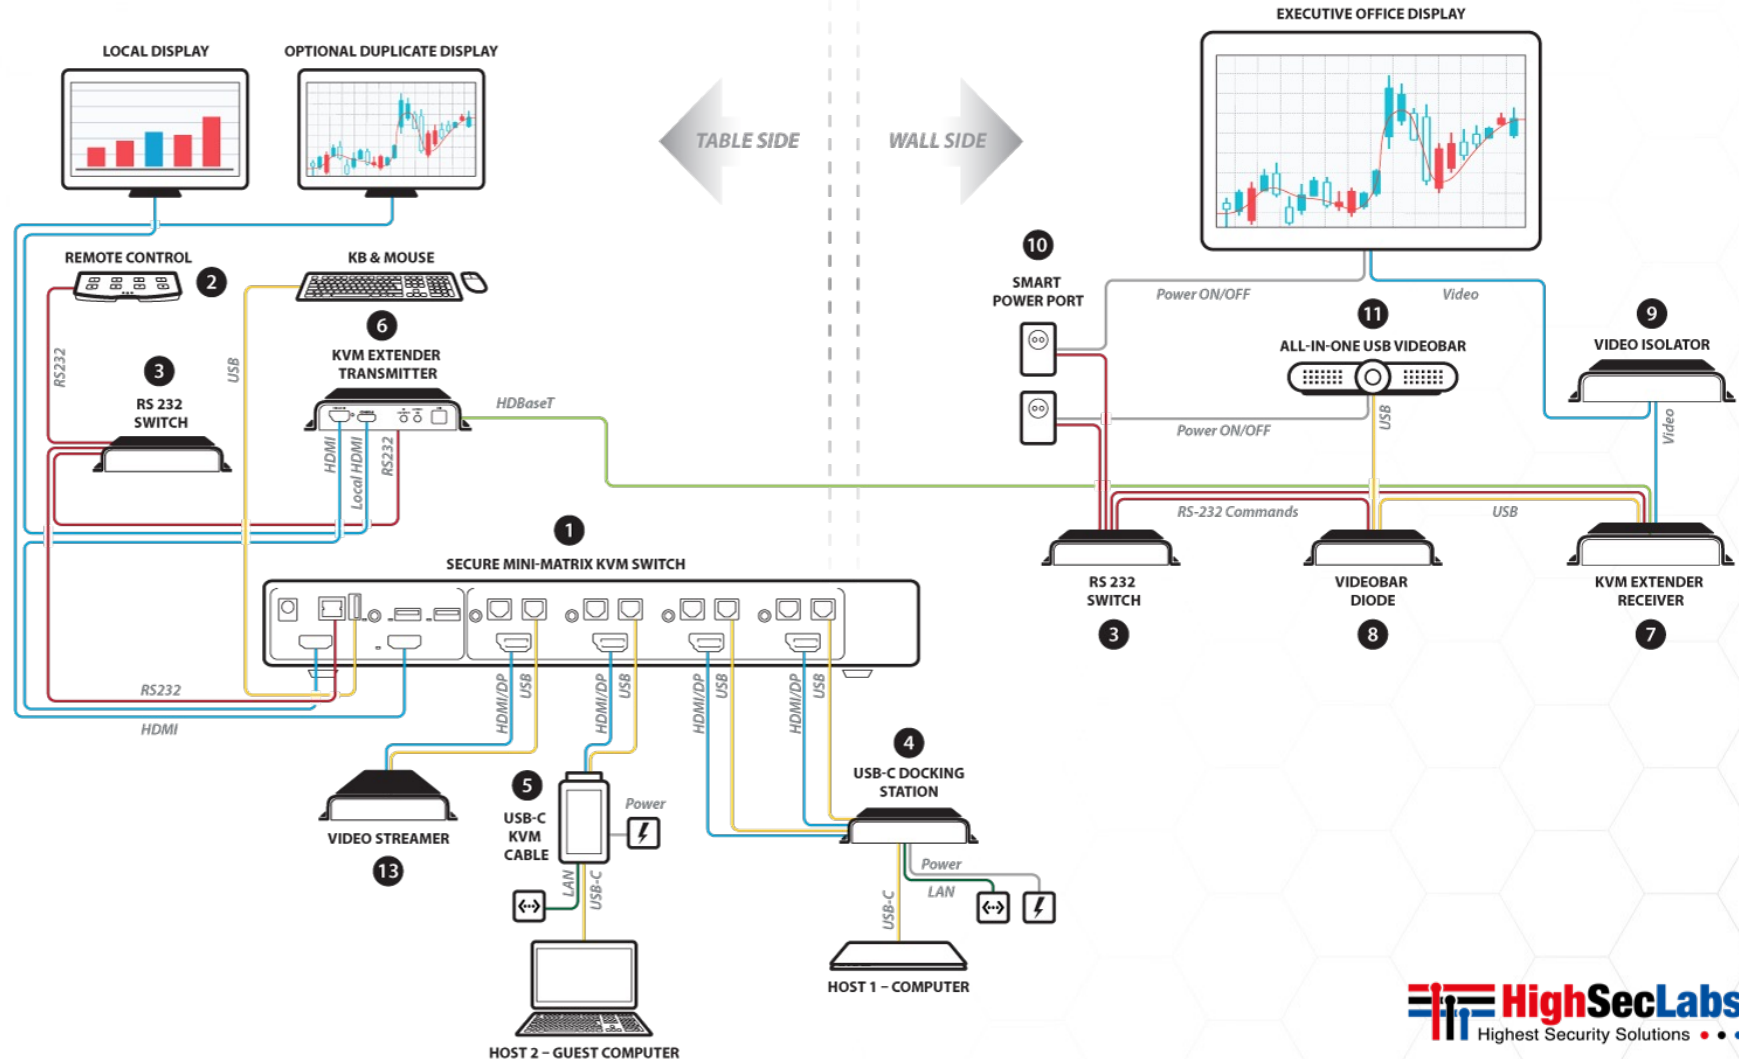

Blending a private workspace with a meeting room, the executive suite's design creates vulnerabilities. The executive works on private displays while guest content is presented, creating a high-value target for attackers. The guest connection, displays, and Videobar are potential attack vectors for malicious code injection, data leakage from the executive's private screens, and eavesdropping on confidential conversations.

SECURE SENIOR EXECUTIVE OFFICE WIRING DIAGRAM

	Product	Model	Qty
1	Secure Mini-Matrix KVM	SX42PHU-4	1
2	Remote Control	WR80PC-4	1

SECURE BOARD ROOM

Manufactured under
a secure TAA/BAA
compliant supply chain

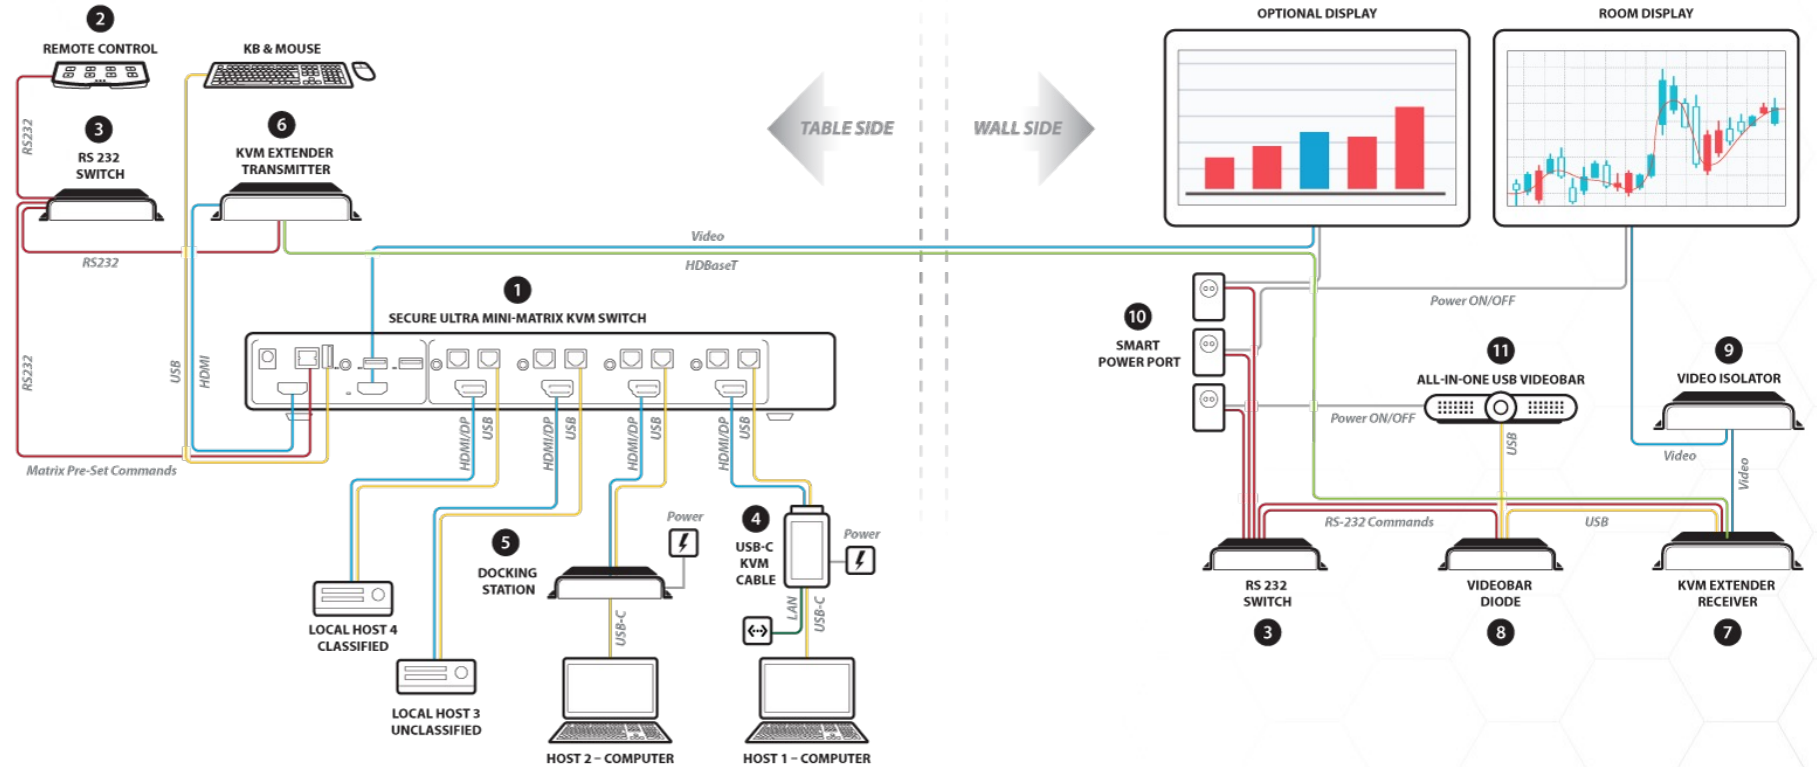

A boardroom is specifically designed for formal gatherings of senior leadership and other high-level decision-making teams. The room is typically equipped with at least two guest laptop connections, one or two local PCs connected to separate classified networks, two presentation displays, and a Videobar supporting virtual meetings. This setting is an attractive hacking target, using the vulnerabilities of peripherals and multiple network connections as attack vectors.
